Elder James D. Hampton, Pastor & Church Administrator
Sis. Fanola Ann Hampton, Administrative Asst.

Our “Business” is Ministry!!!!!!

The Ministry of Administration is best put as the organization of the church; through the leading of God. Administration is vital part of the ministry. It is needed for the church to run effectively. The office of Administration is not an easy tasks. It takes on the major responsibilities of the Church. Administration makes sures the **business** of the church is in order.

We tend to think of administration or management as dirty words in ministry, necessary evils; which are appendixes to “real ministry.” Yet, the biblical concept of righteousness pushes us to see how administrative tasks are a part of the overall goal of Christ’s will. They are the servant hood functions of any good leader.

The Administration Team incorporates the pastoral plan and vision of the church while anticipating and being proactive in communication and planning. It includes the management of all personnel. Our ministry also aids in educating all about the purpose of true stewardship, the calling and sharing of gifts of time, talent, and treasure. Administration includes raising the necessary funds to finance our church ministries, the building or remodeling of our church all while promoting financial accountability
