The mother's board of Zion consists of women called church mothers who have been longtime members of the congregation. The mother's board of Zion is one of the greatest roles in the church. There are things that the Bishop cannot teach the women from the pulpit. That's is one aspect where the church mothers will be utilized. Mothers are responsible for mentoring and assisting the younger women within the church to aide in their Christian growth. They provide mature Christian perspective to the new believer. Our mothers comfort the sick in body and spirit. They are women of wisdom, discernment that allows them to be leading examples of true saints of God.
